1 Text quality report

This document shows results for a total of 4 instances for the animal identification project pipeline.

1.1 Attribute emptiness

A total of 1 observations were found to have empty characteristics. Emptiness characteristics per attribute are as follows:

Attribute	Empty instances	Total instances	Rate of emptiness
locations/9	1565	1568	100%
characteristics/age_of_fledgling	1556	1568	99%
characteristics/special_features	1554	1568	99%
characteristics/average_spawn_size	1547	1568	99%
