1 Text quality report

This document shows results for a total of 8 instances for the animal identification project pipeline.

1.1 Attribute emptiness

A total of 2 observations were found to have empty characteristics. Emptiness characteristics per attribute are as follows:

Attribute	Empty instances	Total instances	Rate of emptiness
locations/9	3130	3136	100%
characteristics/age_of_fledgling	3112	3136	99%
characteristics/special_features	3108	3136	99%
characteristics/average_spawn_size	3094	3136	99%
locations/8	3094	3136	99%
characteristics/age_of_independence	3088	3136	98%
